SLIDE./

extendable dining table

DESIGN BY MIKKI MANN, 2023

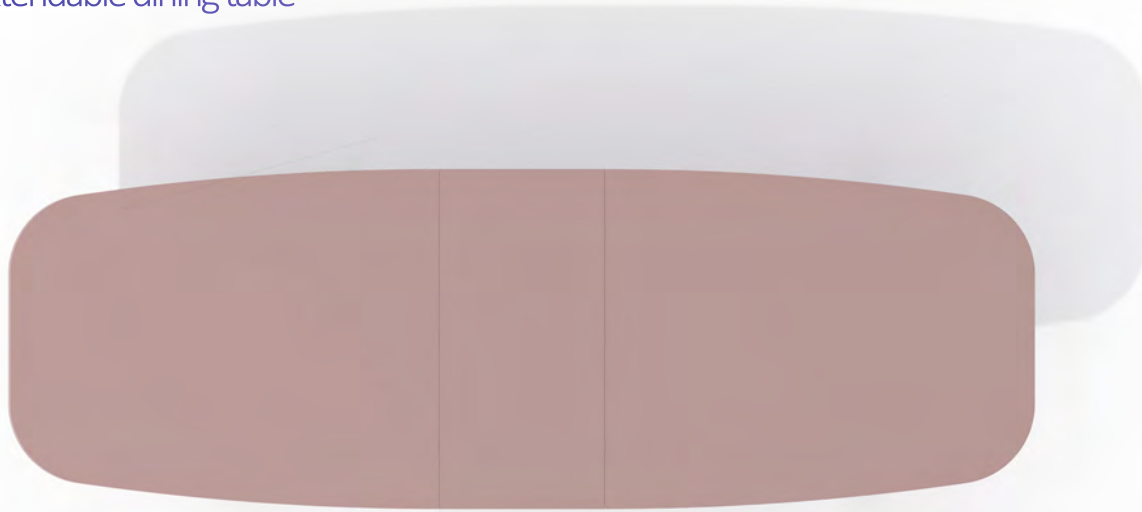

SLIDE./ The new table by fe Studio offers a smooth user experience. The mechanism is elegant, effortlessly slides, allows us to casually switch between moments in our lives. It opens or closes symmetrically, as its beauty lies in its function.

SLIDE./

extendable dining table

SLIDE./ is inspired by the aesthetics of abstract art: the presence of shapes and colors; compositions that reflect simplicity yet sophistication. The elegant solid surface has a silky texture and earthy tones. It floats gently, giving a fine dining experience alongside fine design
